

DR ROSLYN BAYLISS

CLASS OF 1973

Roslyn was our 1973 Girls' School Captain and studied Medicine after High School before becoming what she called a "traditional conservative GP".

Roslyn has spent 20 years in rural practice and returned to Coffs Harbour in 2005 to become the first female general practitioner to work full-time in the Sawtell/Toormina area for over 20 years.

Both of Roslyn's parents were also students at CHHS and were part of the famous 1938 "March" down the then High Street to the school's current site.
